EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adnan Bohri on 5/20/10.

2. The application has been amended as follows:

In the Claims:

3. In claim 1, line 8 after "substantially rigid parts" insert - - in both longitudinal and transverse directions of the blank - -.

4. In claim 1, line 14 delete "the sandwich panel" and insert therein - - a sandwich panel - -.

5. In claim 5, line 2 delete "core skin of the sandwich panel core" and insert therein - - a skin of the sandwich panel - -.

6. In claim 7, line 2 delete "a sandwich panel" and insert therein - - the sandwich panel - -.

7. In claim 10, line 1 delete "core".

8. In claim 10, lines 7-10 delete "prepreg parts; slowing down the hardening along the prepreg between said parts to obtain a planar semifinished-blank comprising a set of substantially rigid parts detached from each other and having a shape of core sides;"

and inset therein - - prepreg parts, and conditions slowing down the hardening along the prepreg between said parts are created to obtain a planar semifinished-blank comprising a set of

Art Unit: 1791

substantially rigid parts in both longitudinal and transverse directions of the blank detached from each other and having a shape of core sides; - -.

REASONS FOR ALLOWANCE

9. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a method for producing a sandwich panel core as claimed including forming a planar semifinished-blank of fully impregnated prepreg comprising a set of substantially rigid, hardened parts in both longitudinal and transverse directions of the blank detached from each other by less hardened prepreg. Both Sumerak (U.S. Patent 5,556,496) and Lewis et al. (U.S. Patent 4,347,287) teach forming a planar semifinished-blank of fully impregnated prepreg comprising a set of substantially rigid, hardened parts detached from each other by less hardened prepreg. However, the detached rigid parts are only in the longitudinal direction, i.e. a single direction, of the blank without the capability of a set of the rigid parts being both in the longitudinal and transverse directions of the blank, i.e. at least two of the rigid parts in each of the directions. Additionally, neither reference teaches the folded 3-D structure as claimed for the reasons as argued by applicants on page 5, last paragraph of the response filed 2/18/10. It is noted support for the examiners amendment above regarding a set of substantially rigid parts in both longitudinal and transverse directions of the blank is found in the Figures depicting the set of rigid parts (1) in both the longitudinal and transverse directions of the blank.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 1791

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **John L. Goff** whose telephone number is **(571)272-1216**. The examiner can normally be reached on M-F (7:15 AM - 3:45 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on (571) 272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
